### *Greetings--*

Inspired by the traditional heritage of freedom, and fused in heart against pressing perils to our life and liberty, we shall meet here at Fairbury in unity, in hope, in constant faith that human endeavor will never cease -- that through the clouds of pessimism and distrust, our cherished nation -- our precious homes -- will remain enduring and secure.

*Dr. Francis E. Townsend*

**The Old Homestead**—Each year when thousands of persons make the pilgrimage to Fairbury, the old farm homestead where Dr. Townsend was born is one of the most popular places of interest. The doctor was born in a log cabin in what are now fields behind the present home. But this house was built by Dr. Townsend's father, and the doctor himself lived in it for several years.

**Welcome!**—Members of Fairbury Townsend Club No. 1 have taken an active interest for the last three years in making Fairbury a Mecca for all believers in the recovery plan advanced by one of Fairbury's most famous sons.
